

**LOCATION: EUROTUNNEL, FOLKESTONE, KENT**

**DESCRIPTION: SERVICE DELIVERY BUILDING**

**THE WORKS:**

Provision of new Service Delivery Building and alterations to existing building.

The work involved the construction of a two-storey steel frame building.

The building is linked to an existing building via an enclosed bridge. A lift is installed for easy access to the first floor and existing attached building.

The building has been designed to cater for Eurotunnel Crew Train staff and is in operation 24 hours per day. The facilities provided include a number of offices, teaching rooms, meeting room, large TV lounge, computer rooms, disable toilet, male and female toilets, showers and locker rooms, lift engine room, reception and staircase leading to the first floor.

The external works involved the installation of cycle sheds, waste bin compound and car parking for 100 cars.
