

LOCATION: LIVERPOOL STREET STATION

DESCRIPTION:

REFURBISHMENT OF TICKET OFFICE INTO A FIRST CLASS TICKET LOUNGE

THE WORKS:

The works comprised of external and internal alterations to the existing Anglia/one Railway Ticket Office.

We had to remove the existing ticket counters (3 No) and install a new electric automatic opening double door.

All internal partitions had to be removed which separated the existing ticket office, lobby and back office so that there is now an open plan unit which we added the fixtures, fittings and furnishings turning it into a first class lounge.
