

QUALITY POLICY

THE QUALITY MANAGEMENT SYSTEM ISO 9001: 2000

The policy of Walker Construction (UK) Limited is to provide building, civil engineering, demolition, waste, design, training and project management services in line with agreed contract requirements, meeting the expectations of the client, within an agreed budget and resulting in a profit acceptable to the Shareholders.

It is the Company's policy to carry out its activities in compliance with current legislation and in accordance with the requirements of ISO 9001:2000, within a culture of continual improvement.

To enable this policy to be effective the Directors will:-

1. Provide documented Company Procedures.
2. Ensure all contracts are processed in a uniform and satisfactory manner by using well proven project management techniques.
3. Set quality objectives with measurable targets during Management Review Meetings.
4. Cascade these objectives throughout the Company.
5. Regularly review and change objectives according to the current policy of the Directors.
6. Provide suitable resources.
7. Provide suitable training.
8. Encourage all staff to suggest ways of improving our operations.

Work carried out on behalf of Network Rail on their infrastructure will be in accordance with Group and Company Standards.
